STQARRIJA MILL-AWTORITA' TA' MALTA DWAR IR-RIZORSI

Ippublikat ir-rapport tal-verifika minn Deloitte tal-metodologija wzata fit-tfassil tat-tariffi

Kif kien intqal fi stqarrija, l-Awtorità ta' Malta dwar ir-Rizorsi (MRA) kienet għaddejja bil-verifika indipendenti tal-metodologija wzata fit-tfassil tat-tariffi. Din il-verifika saret bl-għajjnuna tal-kumpanija Deloitte.

Ir-rapport jikkonkludi li l-kumpanija Deloitte kienet eżaminat il-mekkanizmu wżat u kkonkludiet li taqbel li l-mudell u l-metodologiji wżati fit-tfassil tat-tariffi kienu tajbin tant li jgħid:

- The KPMG model would appear to have been correctly configured for the dynamics of Enemalta's operating cost and billing structures and would appear to be a reliable basis for the purpose of computing 'target revenue' on the basis of the assumed cost base and proposed tariffs;
- The key assumptions, applied in the model accurately tie in the assumptions laid out in the KPMG Reports as amended by other official announcements;
- The key assumptions incorporated into the model would appear reasonable for the purpose of the exercise undertaken; and
- The resultant outputs generated by the final KPMG Report as amended by subsequent charges agreed with the constituted bodies have been correctly transposed into the Draft Legal Notice.

Dan ir-rapport qed jiġi ppublikat b'mod shiħ ma' din l-istqarrija.
