## 1.0 INTRODUCTION

The Malta Resources Authority intends to procure one Server Computer. Potential vendors for such products are invited to submit quotations for the supply and delivery of the items shown on the attached Schedule, in accordance with the terms and conditions laid out in this document.

## 2.0 BACKGROUND INFORMATION

### 2.1 *Response Guidelines*

To optimize the results of this call for tenders, the vendor's response must comply with the following guidelines:

- The vendor's response document should provide a straightforward, concise description of the vendor's ability to satisfy the requirements set out in this document. Elaborate bindings, coloured displays, promotional materials, etc. are not necessary. Detailed technical specification literature is required.
- All documentation must be in English.
- Proposals are to be dropped in the tender box at the Malta Resources Authority, Marsa.

The package should be clearly marked with the reference shown on the cover sheet.

- The servers shall be covered by a 3-year warranty (parts and labour) for a minimum period of 36 months and a replacement must be given in case the equipment is faulty during the time of repair.
- The vendor must designate one *business spokesperson* that can answer questions on general items, pricing and terms, and one *technical spokesperson* that can provide technical clarification to the Authority, if required.
- The vendor should provide both telephone and fax numbers for timely communications.
- The deadline for accepting the vendor's proposal is 10:00 hrs on the date shown on the cover sheet. Late submissions will not be evaluated. All quotations will be considered final as submitted. No further changes will be permitted.

At the time of contract award to the successful vendor by the Authority, and if the contract value exceeds the sum of €9,317, the vendor must be prepared to place a bond in Euro with any commercial bank in Malta, representing 10% of the vendor's quoted total contract amount. The total amount of the bond will be returned to the vendor upon satisfactory completion of the contract.

## **2.2 Goods and Services**

The vendor must be willing to accept sole responsibility for the supply of the equipment.

In the case where the vendor offers components from third party suppliers, it is expected that the vendor will act as a “central co-ordinator” between the Authority and the third-party suppliers.

## **2.3 Vendor Selection Criteria**

The criteria to be used to evaluate the vendor’s proposal include, but are not limited to the following:

- The ability of the vendor’s proposal to meet the minimum requirements specifications.
- The price of the proposed product.
- Specifications above the minimum requirements.
- Energy efficiency
- Vendor viability and local support capability.
- Performance of the proposed product level of service.
- Delivery period.

## **2.4 Evaluation Method**

It is the intention of the Authority to make the selection of vendor/s as fair, objective and efficient as possible. The evaluation teams will be adopting the approach outlined below to achieve this objective.

- Review all quotations to ensure that the minimum technical requirements are met. Any submission which fails to meet the defined minimum requirements will be disqualified.
- Evaluate the proposed products that are above the minimum requirements. The evaluation procedure adopted is based on the weighting of all requirements and scoring the vendor’s responses appropriately.

## **2.5 Right for Non-Selection**

The Authority may, at its discretion, decide not to select any product, and to postpone any or part of the acquisition to some future date or indefinitely.

The Authority reserves the right **not** to select any product at the conclusion of this tender process for any reason whatsoever, and with no liability to it on the vendors involved.

## 3.0 REQUIREMENTS

This section outlines the minimum requirement specifications of the equipment to be purchased by the Authority.

Delays in the supply of materials to the contractor will not be admitted as a ground for the remission of deductions, except in so far as they may have arisen from strikes or other causes which could not be foreseen or overcome by the manufacturers or vendors of such materials. Provided that in the latter event, and unless the contractor within six (6) weeks, from the due date of delivery, resumes supplies as provided for in these conditions, Authority without prejudice to its rights under condition 22 and 23 hereof, shall be entitled to hold the contractor responsible for damages incurred by Authority as a result of the delays referred to in this condition.

25 It shall be lawful for the Chief Executive to reject without the necessity of prior legal proceedings any consignment or part thereof, which in his opinion does not possess the qualities required under the contract and to obtain it elsewhere, at any price, and on contractor's account, should the latter fail to replace the articles rejected within the time allowed for the purpose by the Chief Executive.

26 The name and address of the manufacturer and the country where the goods will be manufactured shall be furnished. Failure to give this information may involve non- consideration of the tender. Full specifications of the product offered shall be submitted.

27 Without prejudice to the Authority's right to dissolve "ipso jure" the contract in the case of infringement of any condition thereunder and apart from the deduction established for delay in delivery, any such infringement shall render the contractor, in each case liable to a deduction by way of damages of 5% of the value of contract or the sum of €23.29, whichever is the greater, unless the Authority elects, with regard to each particular infringement, but not necessarily with regard to all infringements, to claim actual damages incurred.

29 The Authority reserves the right of accepting any tender wholly or in part, or of dividing the contract among two or more tenderers.

30 The award of the contract does not exonerate the contractor from the obligation of obtaining any other permit and/or licence that may be required under any law, principal or subsidiary, in force in Malta from time to time.

31 The contractor shall within 7 days in the case of a local contractor, (15 days in the case of an overseas contractor - such periods to commence from the date of the Letter of Acceptance - furnish the Bank Guarantee by a local bank referred to in the form of tender amounting to 10% or 15% according to the value of the contract.
