

MALTA RESOURCES AUTHORITY

MRA/135/10

20th February 2013

**Tender for Supply and Delivery of Low Emission Vehicles
for the Malta Resources Authority**

Clarification Note 1:

Euro NCAP Rating

Reference is made to Section 8.5 – Technical Specifications and specifically clauses 8.5.2 and 8.5.3 and to the Specifications Form. It is clarified that:

1. For Lot 1 : Executive Cars:

- i. The adult occupant Euro NCAP rating of five stars is applicable only for those vehicles (make and models) rated and tested prior to 2009.
- ii. For vehicles rated and tested since 2009, the make and model of the vehicle offered should meet the Euro NCAP **overall rating** of 5 stars.

2. For Lot 2: Small panel van:

It is noted that the adult protection Euro NCAP rating may not necessarily be applicable for certain makes and models of small panel vans. Therefore the tender specifications are being revised and this rating will not be considered as a mandatory requirement.

Nonetheless, preference may be given to any small panel vans offered which have a Euro NCAP overall rating of 5 stars, or a pre 2009 Euro NCAP adult protection rating of 5 stars, as may be applicable.
