8.0 TENDER SPECIFICATIONS AND CONDITIONS

8.1 Contract Objective

- 8.1.1 The Council Directive 2009/119/EC of 14 September 2009 impose an obligation to all EU Member States to maintain minimum stocks of crude oil and/or petroleum products. It is transposed by Legal Notice 109 of 2013. This particular directive requires that the total oil stocks maintained at all times within the Community for their benefit correspond, at the very least, to 90 days of average daily net imports or 61days of average daily inland consumption, whichever of the two quantities is greater. In order to verify the stockholding obligations, the Authority is issuing a Tender document for the provision of verification services. Last year, these were reported to be found in 5 different sites in Malta containing less than 3 storage tanks at each site.

Last year, these were reported to be found in 10 different sites in Malta containing more than 5 storage tanks at each site. However such information is subject to economic operator decision.

- 8.3.3 Successful Contractor shall verify with each individual main crude oil and/or petroleum product supplier for any security stocks which are held under bilateral agreements, or

contractual rights both on national and international scale (tickets). 8.4 Interim Reports and Payment Terms

- 8.4.1 The Contractor shall submit an interim report to the Authority after each verification of all emergency stocks starting from November 2013 till end of October 2014. At the end of the service contract, the contractor shall forward a final report with the necessary recommendations that should be followed by the Authority.

Two copies of the reports referred to above must be submitted to the Chief Executive Officer or any other officer as may be designated by the Chief Executive Officer. Reports must be written in English.
