

MALTA RESOURCES AUTHORITY

MRA/WAT/19/2013

Clarification Note 3

12th September 2013

Tender: Acquisition of an underwater remotely operated vehicle (ROV)

Question 1: We have been informed by the suppliers that ROV suppliers cannot cover the the Theter and the Propellors with a warranty since these could be damaged by use. Of course the warranty would cover their functioning however if the propellor or the cable is damaged through use we cannot cover this by warranty. We would therefore like you to clarify if we would still be eligible if we supply a warranty of this sort.

Reply: Clause 8.5.14 to the tender document requires that the ROV unit supplied to the Authority includes a 2 year warranty on the complete set of equipment, including the tether and propellors. It is advisable to include all the terms and conditions related to the warranty in the bid.
