

MALTA RESOURCES AUTHORITY

**MRA/WAT/19/2013**

Clarification Note 7

12<sup>th</sup> September 2013

**Tender: Acquisition of an underwater remotely operated vehicle (ROV)**

**Question 1:** Will then Clause 7.1.9 be deleted? If not you need to clarify what you mean by:  
The contractor shall be solely responsible for the safe operation of the plant and equipment employed on site in connection with the works, including the safety of the operators. All equipment shall conform to all safety regulations and legislation in force and / or recognised standards/codes of practice, while all the operators shall be in possession of all the necessary recognised permits, qualification and skill required to carry out such duties

**Reply 1:** It is noted that Clause 7.1.9 falls under the General Special Conditions of the Tender Document. This Clause applies in cases where the tender is for the provision of on-site works. In this respect it is noted that the current call for tenders is for the supply of specific equipment and not for the on site operation the same equipment. Therefore it is clarified that Clause 7.1.9 does not apply for the purpose of this call for tenders.
